

Minutes of the National Advisory Committee
on Microbiological Criteria for Foods (NACMCF) Plenary Session
Friday, August 22, 2003

Hotel Monaco
700 F Street,, N.W.
Washington, D.C. 20024

Dr. Merle Pierson, USDA, Deputy Under Secretary for Food Safety, Chair, opened the meeting at 8:40 AM, Friday, August 22, and provided opening remarks.

Reports from the Subcommittee Chairs

Mr. Spencer Garrett, Chair, Subcommittee on Microbiological Performance Standards for Broilers (young chicken)/Ground Chicken presented an overview and background information on the FSIS baseline review charge requesting NACMCF review of proposed microbiological baseline studies of raw ground beef components. He also reviewed in detail the Subcommittee work and report on “NACMCF Response to USDA/FSIS Request For Guidance On Baseline Study Design And Evaluations For Raw Ground Beef Components.” Mr. Garrett presented the document to the Full Committee for consideration of adoption. After deliberations the document was adopted with changes (1st motion by Katherine Swanson, 2nd motion by John Kvenberg).

Mr. Spencer Garrett also reported progress on a performance standards document for broilers/ground chicken. This report is a work-in-progress and no action was taken.

Dr. Don Zink, Subcommittee Chair of Criteria for Refrigerated Shelf-life Based on Safety provided an interim report on work progress on a draft document. No action was taken.

Dr. John Kvenberg, Subcommittee Chair of Scientific Criteria for Redefining Pasteurization provided background and issues related to the Subcommittee work charge on redefining pasteurization. He reported progress on a document covering alternative technologies for pasteurization and discussed Subcommittee thoughts, strategies, and plans for responding to the charge. No action was taken.

Public Comment

Mr. Sam Ankrah, Virginia Tech, commented on the FSIS Risk Assessment for *Escherichia coli* O157:H7 and elements of the FSIS sampling plans for raw ground beef component baseline studies.
